Subject: RE: EXERCISE EXERCISE EXERCISE Technical Support to Eagle Horizon

Hi Eric. We do not have anyone in NCEA with current, primary expertise in these areas.

In case it's helpful, I will identify a couple of individuals with some past experience, but again, we wouldn't put them forward as primary experts:

Deliberative Process / Ex. 5

Mary Ross, PhD
Deputy Director for Management
EPA/ORD/NCEA

Subject: EXERCISE EXERCISE EXERCISE Technical Support to Eagle Horizon

All

ORD has been asked to accomplish a few things in support of the exercise.

Background

Last night the Emergency Relocation Group Members were notified of an imminent threat of a WMD in the National Capital Region. The Continuity of Government Readiness Condition (COGCON) level has been raised to COGCON 1. So all the ERG members were instructed to go to the COOP location in Virginia. The nature of the WMD is nuclear, so the anticipatory actions now will focus on the issues/expertise listed below.

I need your assistance in identifying any individuals in your organizations that can help address:

- Atmospheric dispersion of radioactive materials
- Impacts of a IND/dirty bomb explosion in an urban environment
- General information about radioactivity

So far we've identified two NHSRC staff who can contribute, but we want to see if there are others in your organizations.

ACTION: Please identify possible staff with appropriate expertise.

Also, we will need the help of the experts to develop a fact sheet for the Deputy Administrator.

- atmospheric dispersion
- Office and residential building exposures as related to making determinations if people should shelter-in-place vs. evacuate
- radioactive exposure levels & recommended safe distances

ACTION: Please provide any information (fact sheets, other references) that could help develop the fact sheet.

Please let me know ASAP by email if you have anyone on your staff that can assist. I will need his/her name, email address, office phone, cell phone, and/or home phone. We have also been instructed to coordinate with the OAR folks, which is being covered now.

At present, we will staff these needs by email, but there is a good chance that we will need to get together on the telephone. I will send out a meeting invitation as necessary.

Thanks for your cooperation.

Eric
